

**API ICP
Certification Examinations**

**API 510
Pressure Vessel Inspector**

API 510 body of knowledge covers in-service inspection, repair and alteration of unfired pressure vessels. Based on the principles of ASME VIII-I construction and API inspection codes and Recommended Practices API RP 571, 572. Exam is computer-based and comprises open book and closed book examinations; total 150 questions

API 570 PIPework Inspector

API 570 body of knowledge covers in-service inspection, repair and alteration of pipework. Based on the principles of ASME B31.3 construction and API inspection codes and Recommended Practices API RP 571, 574. Exam is computer-based and comprises a total of 150 open book and closed book questions.

API 653 Storage Tank Inspector

API 653 body of knowledge covers in-service inspection, repair and alteration of above-ground atmospheric storage tanks. Based on the principles of API 650 construction and API inspection codes and Recommended Practices API RP 571, 575, 651, 652. Exam is computer-based and comprises open book and closed book examinations; total 150 questions.

Examination application details

Application for registering as a candidate for the API 510, 570, 653 exams is made through the API website www.api.org. References and entry criteria apply. See application cut-off dates on calendar. Exam cost is \$900US per exam with \$700 renewal every 3 years. Once registered with API, exams are booked at one of the worldwide exam centres www.prometric.com

Exam preparation

API ICP Certification examinations are difficult, requiring a detailed knowledge of the Body of Knowledge to be able to pass. Exam preparation courses are available through separate industry training providers (not API). Look carefully at the provider's exam pass rate before embarking on a course. Expect the course to be challenging if you wish to pass the exam. **PLEASE CONTACT US** if you have any queries about the technical aspects of the BoK or exam scope.
